

THE HERITAGE OF ORCHARDS & CIDER MAKING IN WALES

FRUIT TREE & ORCHARD INFORMATION GUIDE

This guide will direct you to a variety of sources which will give an introduction to all stages of fruit tree and orchard management, from planning and planting through to cider making and orchard events. This guide provides links to written documents, diagrams, videos and useful websites. You will need Internet access to use this guide.

This guide has been produced as part of "The Heritage of Orchards & Cider Making in Wales" project, funded by the Heritage Lottery and carried out by The Welsh Perry & Cider Society and partners.

LINKS TO VIDEOS

Click this symbol to view videos relating to different aspects of orchard management, with advice provided by orchard experts.

BLUE BARNES-THOMAS

Horticulturalist at National
Botanic Garden of Wales

Providing Nutrients:

Blue explains how to provide nutrients to young trees.

Formative Pruning:

Blue demonstrates two different pruning methods - goblet and leader.

FRUIT TREE & ORCHARD INFORMATION GUIDE

MATT DUNWELL

Ragman's Lane Farm

Planting on Contours:

Matt explains how to plant trees on contours.

Willows for Compost:

Matt explains how he planted willows in waterlogged soil and uses them for compost for his orchard.

Mulching & Nutrients:

Matt explains how to provide nutrients to fruit trees using organic material.

FRUIT TREE & ORCHARD INFORMATION GUIDE

Pruning Demo:

Matt demonstrates how to prune fruit trees to encourage new growth.

Matt explains how and why he grafted a tree to change its variety.

FRUIT TREE & ORCHARD INFORMATION GUIDE

JOHN WORLE
Orchardist

John demonstrates three different grafting techniques – whip and tongue, Somerset Saddle and rind grafting.

FRUIT TREE & ORCHARD INFORMATION GUIDE

USEFUL WEBSITES

These links will provide more information to help maintain and make use of your apple and pear tree or orchard.

PEOPLE'S TRUST FOR ENDANGERED SPECIES

The PTES website has a section specifically based on traditional orchards, with a wide variety of information about orchard management, including practical guides which can be downloaded and printed. There is also information on how to make use of the orchard for events, fundraising and produce.

<https://ptes.org/campaigns/traditional-orchard-project/>

IAN STURROCK & SONS

This nursery has been growing Welsh fruit varieties for over 30 years, and the website has several video guides, including tips on pruning, grafting, and identifying and avoiding disease.

FRUIT TREE & ORCHARD INFORMATION GUIDE

BUMBLEBEE CONSERVATION TRUST

Orchards play an important role in protecting bumblebees through providing pollen and nectar from blossoms, and the bees in turn help pollination in the orchard. The website has information on how to manage land – including a fact sheet on orchards - for bumblebees.

<https://www.bumblebeeconservation.org/land-management-advice/>

WILDLIFE TRUSTS

Local wildlife trusts can give advice on maintaining biodiversity and managing orchards for wildlife. There are six wildlife trusts within Wales, covering different geographical areas.

South & West Wales: **<https://www.welshwildlife.org/>**

North Wales: **<http://www.northwaleswildlifetrust.org.uk/>**

Gwent: **<http://www.gwentwildlife.org/>**

Montgomeryshire: **<http://www.montwt.co.uk/>**

Brecknock: **<http://brecknockwildlifetrust.org.uk/>**

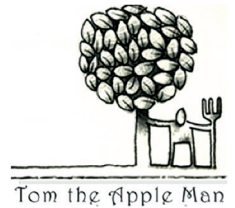

Radnorshire: **<http://rwtwales.org/>**
